Try any of the function buttons on your remote. If it works, then you got the process correctly. If not, repeat from step 3 and 4 and try another code until you get the right code. Also Read Jensen Remote Control Codes Programs and InstructionsFrequently Asked Questions What Is A Digital Converter Box? A digital converter box is a digital box that helps you access digital contents on an analogue TV. Can I Use Any Remote Control On My Digital Stream Converter Box? Yes, As long as it is a universal remote control. Setting up a universal remote control is a great way to reduce clutter in your home. These handy accessories are easy to set up and are compatible with a wide range of devices.What Is a Universal Remote?A universal remote can control a variety of different electronic devices, including TV sets, DVD players, Blu-ray players, DVRs and stereos. Therefore, you just need one remote instead of several, and switching on your entertainment system is much quicker and easier. There are several different brands available: RCA and GE are two popular brands in the US.How Do You Program a Universal Remote?Programming a universal remote is usually quick and easy. It usually just involves punching a combination of buttons to pair it with your devices. However, the exact combination of buttons varies between brands and models. Your best bet is to find the manual that came with your remote and look up the remote control setup codes. You can also usually find these online on the manufacturer's website. Programming an RCA RemoteMost RCA remotes have the same setup process. Just turn on the device you want to pair with the remote and press the button on the remote for that device. For example, if you want to pair it with a TV, press "TV." Wait for the "On/Off" button to light up and then press and hold that button and the button for the device at the same time. When the "On/Off" button lights up again, let go of the buttons. Press the "Play" button and wait for your device to turn off. If nothing happens, wait a few seconds and then press "Play" again. Once it turns off, press "Reverse." If the device switches back on, you have successfully programmed your remote. Press "Stop" to save the changes.Programming a GE RemoteGE remotes use remote setup codes. These are available online or in your remote control's documentation. To use the codes, Turn on the device you want to pair, press "Setup" and wait for the light on the remote to turn red. Press the appropriate device button, enter the code and wait for the light to turn off. Press the power button on the remote to see if the code worked.Troubleshooting a Remote That Doesn't Work.If the programming purpose didn't work, try the process again. If your remote uses codes, you may want to try a different code. If your device still doesn't respond, go to the manufacturer's remote control support page. From there, you can access a new remote control code list, find troubleshooting instructions or contact customer support. MORE FROM QUESTIONSANSWERED.NET
